Dear Will,

Thank you very much for your prompt and thorough work. Your simple approach to autoresponders saved us literally thousands of dollars of development time.

I must also say that in today's technology age it was refreshing to work with someone who treated us as if we were your only customer. You guided us through all the necessary preparation, completed the installation ahead of schedule and left us with complete instructions on how to fend for ourselves for minor changes. However, left us secure knowing you'll be there for us if we need anything else in the future.

Thank you again!

Michael Bates
